

# Glass Stiffeners

Our range of Glass Stiffeners are perfect for Frameless Glass Balustrades that do not have handrails as they perfectly maintain the alignment of the individual panels. Made from Duplex 2205 Stainless Steel these components are far more resistant to corrosion than 316L and have a superb satin finish. With 4 sizes available to suit glass sizes between 10mm - 21.5mm and 4 variants that cover 90°, 180°, adjustable and wall mounted options, every option is catered for. Please note that the diagrams below are based on the 20mm - 21.5mm variant. Full sizes of entire range are available online.

**180° Glass-Glass**

**90° Glass-Glass**

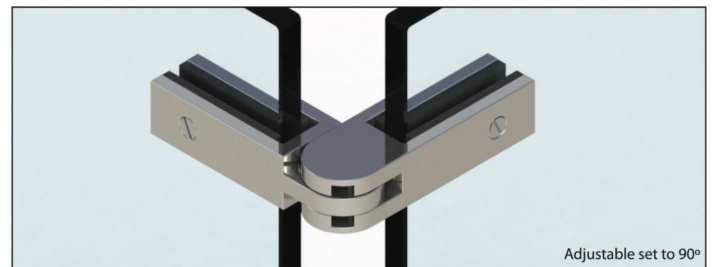

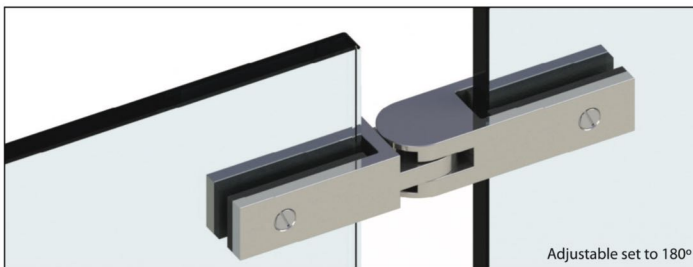

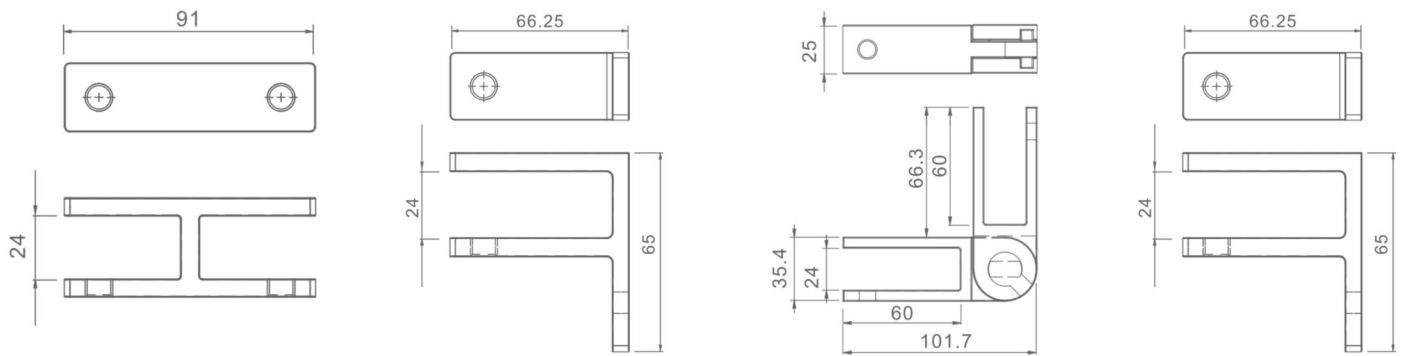

**Adjustable Glass-Glass**

**90° Wall-Glass**
