

Endfold 90 Technical Details

Max door weight 90kg. Max door width 1000mm. Max door height 3300mm. Min door thickness 35mm.

How to create an Endfold 90 System.

This diagram shows which hardware you need for setting out an Endfold 90 project.

BFD-HSE hinge sets include 2 standard hinges and 1 hinge handle.

BFD-HSI hinge sets include 3 standard hinges.

BFD-FBN Flush Bolts are non-locking whereas FBL variants are lockable.

Track and Chennal sets are sold in 1.8, 2.4 or 4.2 lengths.

Flush Handles suited to the bolts are also available.
