

# Loft

|                                       | Loft 2  | Loft 3  |
|---------------------------------------|---------|---------|
| Number of doors                       | 2       | 3       |
| Maximum door weight                   | 100 kg  | 100 kg  |
| Maximum door width (excludes overlap) | 1500 mm | 1000 mm |
| Maximum opening width                 | 3000 mm | 3000 mm |
| Maximum door height                   | 3000 mm | 3000 mm |
| Minimum door thickness                | 16 mm   | 16 mm   |

Sliding door system for high bi-passing doors. Components include 2 top tracks and 2 bottom channels - extruded aluminium anodised silver, 4 wheel hangers with nylon wheels and bearings with both top fix and side fix plate options. Supplied as kits for 2 or 3 door applications and with a choice of gold or silver anodised handles - please specify when ordering. Locking flush bolts available - see page 60. Track and channel can easily be cut to suit opening size.

**Ideal for: Heavy wardrobe and cupboard doors or room dividers**
